

Dmytro Anastasiy

Digital Designer & Developer

✉ dmytro.anastasiy@student.howest.be

📍 Belgium

🌐 dmytroanastasiy.github.io/portfolio

Summary

Digital designer and developer with a background in graphic and type design, focused on experience and visual design: interfaces, interaction, motion and visual systems. Works from research and concept through to final design, and builds what he designs, thinking in systems and prototyping in code. Proficient in Figma and Adobe CC, with front-end skills in HTML, CSS, JavaScript and Astro. I care about quality in both how a project looks and how it is made.

Education

Bachelor in Digital Design and Development (DEVINE), <i>Howest University of Applied Sciences</i>	2024 – 2027 Kortrijk, Belgium
Typo Logo Design, <i>Projector Online Institute</i>	2023 Online
